PRESENTATION AND DISCUSSION

The Relationship Between the Planning Commission and the Board of Trustees – Rick Galardi, Township Supervisor Supervisor Galardi presented an outline defining the relationship between the Planning Commission and the Board of Trustees, as well as the forces that motivate each, using the theme of “Art and Science.” He called upon Clerk Cramton to further discuss what it means to be a representative for the residents, as is the Board, versus being a representative of the residents, as is the Planning Commission. Each Commissioner and Board member was then invited to comment.

Additional Comments – Bruce Keilen, Planning Commission Chair Chair Keilen commented that it is important to remember to remain respectful of each other, particularly when there are contentious issues being considered. He emphasized that the Commissioners’ different backgrounds and different perspectives, as well as information from staff, all contribute to fair recommendation to the Board. Again, Commissioners and Board members were invited to comment.

Commissioner Daley expressed concern for farmland preservation. He feels that the Township is at risk losing valuable farmland to development.
