4. Public Safety Committee Direction: Committee members discussed what their role has been in the past as well as what their function has been in the past two years. Various discussion points were presented regarding what the committee could do. Manager Taylor discussed several areas that the committee could become involved in in providing recommendations to the Board of Trustees.

The committee felt that if they were to stay functional, they needed to have value. Perhaps their role needed to be redefined. The committee also felt that to be functional they needed more members. It was also discussed that maybe the role would be as an ad hoc committee when needed.

Trustee Seeger will discuss with the Board of Trustees at a future Board meeting regarding the Public Safety Committee.
